## Luces dictionary definition | luces defined

Esta misma blandura de mi carácter es a todas luces lo que nos hace incompatibles en la vida íntima, según han demostrado ya diferentes ensayos; pues a él le exasperan las formas suaves y corteses, las escenas tiernas y cariñosas, y todo lo que no sea rudo, áspero, fuerte y belicoso.

## About Dos Luces - Dos Luces

Dos Luces. The sun and the moon. Inti and Meztli. Chicha and Pulque. We chose the name Dos Luces because it represents the duality of light - While you might be tempted to imagine this as light and darkness, we prefer to consider the bright light of day in contrast to the brightest beacon of light at night.

: a unit of illumination equal to the direct illumination on a surface that is everywhere one meter from a uniform point source of one candle intensity or equal to one.
